MICROPAULIN™

MULTILAYER LAMINATED TARPAULIN

A product of PANKAJ®

Light to lift.
Hard to tear.

Waterproof polyethylene sheets, laminated in layers, that stretch far before they tear. For truck covers, relief shelters, site covers and lining.

ECO FRIENDLY PRODUCT

4 GRADES

- 90 GSM
- 120 GSM
- 150 GSM
- 200 GSM

25 SHEET SIZES

6' × 6' to 50' × 50'

700%+
elongation at break, both directions

50,000
flex cycles passed, before and after ageing

2,700 gf
tear strength, transverse

Lab results for 200 GSM Micropaulin, manufacturer's Certificate of Analysis, October 2026.

THE EXPORTER

Grace Ferro Exports

A Coimbatore-based export house supplying overseas buyers. We are the distributor and exporter of Micropaulin™ tarpaulin.

We handle your order end to end: specification, sampling, export packing, documentation and shipment from Indian ports. Grace Ferro exports to 16 countries across Europe, the Gulf, Asia, Africa and North America.

IEC · GST · MSME · FIEO member · APEDA · ISO quality assurance · DUNS 931865379 · REX registered

THE PRODUCT

Micropaulin™ by PANKAJ®

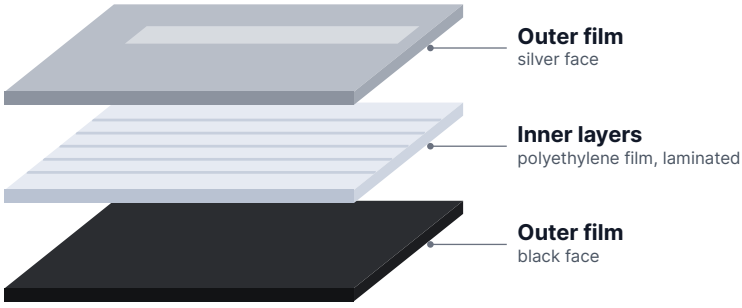

A tarpaulin made from layers of polyethylene film laminated into one sheet. It is light to lift, keeps water out and gives under load instead of splitting.

Micropaulin is made in India by an ISO 9001:2015 certified manufacturer. It comes from the same PANKAJ® range as Crosspaulin™ cross-laminated tarpaulin.

CONSTRUCTION

Film layers, laminated into one sheet

There is no woven base, so there is no weave to fray or let water through. Each face can carry its own colour: the 200 GSM grade below has a silver face and a black face.

Illustrative exploded view of the black/silver grade, not to scale.

200 GSM black/silver sheet, with eyelets and the printed grade mark.

4 grades
90, 120, 150 and 200 GSM

25 sizes
6′ × 6′ to 50′ × 50′ sheets

Eyelets
along the edges, for roping down

Rolls
also available, for converters

WHY MICROPAULIN

Tough where covers usually fail

Covers fail at the edges, at the folds and in the wind. These are the properties that decide how long a sheet lasts, with lab figures for the 200 GSM grade.

Waterproof
A continuous film with no weave. Passed the water-proofness test.

Stretches, not splits
Elongation at break above 700% both ways, so gusts and tight ropes are absorbed.

Tear-resistant
2,200 gf along the roll and 2,700 gf across it, which helps around eyelets.

Folds without cracking
Passed 50,000 flex cycles, both new and after ageing.

Impact-resistant
Dart impact of 380 g, for loads with corners and falling debris.

UV-protected
Made for outdoor use and stated by the manufacturer to be UV-protected.

Certificate of Analysis 200 GSM, black/silver

Test	Unit	Machine direction	Transverse direction
Weight	g/m²	196 (specification 200 ± 10%)	
Density	g/cm³	0.928	
Tensile strength	kg/cm²	223 (21.9 MPa)	204 (20.0 MPa)
Elongation at break	%	723	708
Tear strength	gf	2,200	2,700
Dart impact	g	380	
Water-proofness	–	Pass	
Flex, 50,000 cycles	–	Pass before ageing · Pass after ageing	
Visual	–	Satisfactory	

Results for one production lot, from the manufacturer's quality control, dated 31 October 2026. Typical values; confirm with your order.

Need test data for your tender?

We can send the signed certificate for the 200 GSM grade and request results for the grade, colour and lot you order.

PRODUCT RANGE

Four grades, 25 ready sizes

Choose by weight. Heavier grades are for longer outdoor exposure and rougher handling; lighter grades are easier to lift and tie down. Every size comes in every grade.

90 GSM

WEIGHT
90 g/m² · 2.7 oz/yd²

COLOUR
Yellow pictured

120 GSM

WEIGHT
120 g/m² · 3.5 oz/yd²

50′ × 50′	15.2 × 15.2 m	232.3 m² (2500 sq ft)	20.9	27.9	34.8	46.5

Nominal weights, calculated as GSM × area; they exclude hems and eyelets. Metric sizes are rounded. Confirm finished sizes, colours and roll dimensions with your order.

APPLICATIONS

One sheet, many jobs

Site and scaffold covers

Covers for goods kept outdoors

Truck covers
Cargo kept dry in transit.

Relief tents
Fast, light shelter.

Canal lining
Ponds, pits and channels.

Stack covers
Grain, sacks and hay.

Some images are illustrative.

ORDERING FOR EXPORT

Price	On request, quoted per order.
Incoterms	FOB or CIF.
Ports of loading	Chennai, Mumbai or Nhava Sheva; other Indian ports on request.
Payment	Agreed per order: LC (usance / UPAS), advance with balance against scanned B/L, or D/P.
Range	90, 120, 150 and 200 GSM in 25 standard sheet sizes (page 4); rolls and custom sizes on request.
MOQ & lead time	Quoted with each enquiry, by grade, size and quantity.
Samples	Available on request.
For a fast quote	Tell us the GSM, colour, sheet size or roll width, quantity and destination port.
